

CHELSEA FLOWER SHOW 2005 SPELLER SCULPTURE

Inspired by desert gardens, Green Graphite worked with artist Michael Speller to create an award winning stand at the Chelsea Flower Show.

A minimalist, open plan space maximised circulation and viewing of the sculpture while the drought tolerant, architectural plants provided a non-competitive contrast to their organic form.

From a marketing stand point, the xeriscape style provided an eye-catching distinction from the surrounding stands.

For this, the stand won a Certificate of Merit for outstanding presentation.
