

KNUTSFORD FLORAL WALK 2008

Knutsford Floral Walk Project – our involvement:

To celebrate Cheshire's Year of Gardens '08, Green Graphite have been invited by Visit Chester & Cheshire to design and help coordinate the Knutsford's first ever Floral Walk project along King Street and the RHS Flower Show Tatton Park.

The Floral Walk is an initiative to enhance the town centre during the RHS Show, generating support for Knutsford businesses.

The award-winning Knutsford Floral Walk Garden is a key element of the project and is part of Cheshire's Year of Gardens '08 display at the RHS Flower Show.

The garden merges a wildflower meadow with a manicured lawn, burst open to reveal an explosion of flowers, symbolising the cultivated and natural beauty around Knutsford.

Along King Street we've used miniature versions of this design as vertical gardens to create a living, floral gallery fixed to walls and as free-standing displays.

Our main materials and construction partners are local businesses: Allturf Ltd, Fryer's Roses and the Grounds Maintenance Department at Macclesfield Borough Council.
